

Send us your logo and our artists will create a rendering for your review. When you customize with your logo, you receive a **free art proof within 24 to 72 hours** to review and approve before we make your award.

BEST RESULTS

Preferred: vector artwork

- A vector file saved from **Adobe Illustrator** or **CorelDRAW**.
- Convert all fonts to curves or outlines, or send the fonts with your file.
- No linked or embedded objects in the file.
- For engraving and one-color imprints, all graphics in black and white.

EXTRA STEP

Accepted: raster images

- Non-vector files such as **.jpg** or **.png**.
- A one-time logo conversion fee is applied to your order to redraw the logo as vector art.
- Allow up to 48 hours of additional art proofing time.
- We can't create your logo from Microsoft Word, Excel, PowerPoint or other presentation files.

Vector: clean edges at any size

Raster: edges break up when enlarged

Engraving reads in one tone. For engraving and many imprint methods, gradients, shading and shadows are removed and the logo is rendered in black and white. Our art department will still make every effort to work with the file you send.

Full-color printing of images and photos

- Send high-quality **.jpg**, **.png** or **.tif** files.
- Images in our collection are 300 dpi and sized for each product. Upload an image that is still above 72 dpi after it is resized to fit the product.

Sending your artwork

Upload it with your order or quote request, or email it to art@kusak.com with your order number.

Questions? Call 1-800-426-9347, Monday to Friday, 9am to 5pm Pacific.

By sending artwork, you confirm that Kusak Crystal may use the copy and material you submit and that its use complies with all laws, including intellectual property rights. One original art proof and one reproof are included; additional proofs may carry a charge.
